## Objective of this workshop

- ✓ Disseminate the uses, applications and needs of HPC from SMEs for companies in the Euroregion. Public first part.
- ✓ Make an agreement about needs and requirements for SMEs which innovate about HPC and Big Data services, to design better infrastructures to support innovation to foster their competitiveness. Restricted part due to methodology. After coffee break.
- ✓ Make an agreement about the key factors for an optimal design of an HPC platform for leveraging new services and products which need this kind of infrastructures. Final report.
